

Need to reduce your pole inventory, and keep your options open to customers?
Solution: AMERON

With the most resourceful pole you could own, Ameron Prestressed, Spun-cast Concrete Poles in Medium Round or Octagonal Series offers interchangeability today and tomorrow.

Ameron's pole top connection system, with removable connecting bolts, permits end users to change mounting options. This allows for flexibility of one inventory pole that will handle numerous design requirements, as shown below, and reduce your overall inventory cost.
