

# Ameron™

## LBBX Small Cell Support Structure

### Integrated flexibility to adapt to your changing networking needs.

Expand your cellular coverage and increase network infrastructure with our LBBX small cell pole. Designed with unique aggregates to blend with any environment, the LBBX conforms to your architectural requirements and provides a durable, environmentally-friendly solution to keep network connectivity uninterrupted.

### Features and Benefits

- Prestressed steel and highest quality concrete are centrifugally cast for ultimate strength, durability and vibration resistance.
- Natural stone and terrazzo aggregates maintain a like new appearance with virtually no maintenance.
- Conforms to applicable sections of ACI, AASHTO, ASTM, and IBC standards.

### Colors and Finishes

A wide range of standard, pre-formulated and custom colors are available. The concrete shafts are lightly blasted to expose the texture and color of the natural stone. See separate Aggregates and Finishes sheet for details. We offer Amershield™, a premium graffiti-resistant coating, as well as other durable sealers and protectants that further enhance colors, protect the concrete surface and aid in the removal of graffiti.
