

Ameron™

Traditional Series Washington Pole

Available in base plate style

In 1910 the Commission of Fine Arts in Washington D.C. designed the simple, classically fluted lighting standard on which the Ameron Washington pole is based. Our version of the classic design is available in durable, low-maintenance, prestressed and spun-cast concrete that retains its beauty for many years even in the most severe weather conditions.

This timeless design complements both traditional and contemporary settings. Our Traditional Series lighting poles combine the charm of yesterday with the technology of today. Available in a wide variety of styles, colors and finishes, these poles provide architects and designers with many creative options.

Features and Benefits

- Prestressed steel and highest quality concrete are centrifugally cast for ultimate strength and durability.
- Natural stone and terrazzo aggregates maintain a like new appearance with virtually no maintenance.
- Conforms to applicable sections of ACI, AASHTO, ASTM, and IBC standards.
- Exclusive 10-year warranty

Colors and Finishes

A wide range of standard, pre-formulated and custom colors are available. The concrete shafts are lightly blasted to expose the texture and color of the natural stone. See separate Aggregates and Finishes sheet for details. We offer Amershield™, a premium graffiti-resistant coating, as well as other durable sealers and protectants that further enhance colors, protect the concrete surface and aid in the removal of graffiti.

Durability with a classic touch.
