

Pole Products Tube Division

Building stronger partnerships from coil to completion

When it comes to diversifying your supply chain, you have the power to choose your steel tubes manufacturer. We provide round taper steel tubes, and with a combined 400 years of engineering and 40 years of sales and support experience, we are ready and qualified to be your partner. Leveraging our national footprint, we can support your specialized project needs and deliver on-time and on-budget.

Why choose us for your steel tubes?

Our steel tubes are manufactured from domestic material*, and we meet applicable AASHTO and varying state requirements. We also complete industry testing to ensure weld penetration and comply with specifications for material yield. During manufacturing, we use state-of-the-art high frequency electrical resistance weld capabilities which provide an exceptional weld finish and strength to our steel tubes. Further, we build per recognized ASTM standards, including, A595, A1011 and A572.

*Certificates available upon order request.

Why are we a trusted partner?

Fast lead times

- Stay on schedule
- Deliver projects on time
- Control your costs

Exceptional quality

- Durable steel tubes produced in a state-of-the art, lean manufacturing facility

Stockpiling

- Trust our team for logistics support
- Flexible options from facilities across the US
